What we Have at Staks.

BEAN'S STATION, July 22.

MR. EDITOR: In the approaching election on the State debt question there is, in my opinion, more at stake to the people of the State of Tennessee than the mere question of dollars and cents. But it is a contest between the repudiators on the one side and the State credit men on the other, and you will find that every strait-out repudiator is opposed to the acceptance of the 50-4 proposition. Now this is not a Republican measure in toto, we admit, but it is the best proposition that possibly could have been passed in the last Legislature, there being such a large proportion of the Democrats repudiators, who were in the ascendancy in either house. Now as this is a contest between the State credit men and repudiators, who are the Republicans to vote with? Why, with the State credit Democrats of course. Can we afford to vote with the repudiators? If we fail to vote it counts one half vote in favor of repudiation, as it amounts to a withdrawal of a vote, and a failure on either side counts the same way. If the proposition is rejected, our State is then carried by the repudiators, and they will exist all over the State, it will renew their strength and increase their hopes, and repudiation will be the final result in this State. I regard the 60 cents proposition as a very liberal one, and one which the Legislature ought to have accepted and have settled this question at once, but then it has been tried time and again, and a failure has always been the result.

Those proposing to accept 60-6, according to the statements made by Governor Porter to the extra session of the Legislature, 1877, held bonds to the amount of \$2,741,700. See message. It is now claimed that something over \$5,000,000 representation proposes to accept the 50-4 compromise, but as to the amount represented by those who renewed the 60-6 proposition to the last Legislature is not known, but I have heard suggested that they were not so many as in 1877; hence, the cause of concealing their number, as it might weaken the proposition if their numbers were rightly known. It will pay the State of Tennessee to accept the proposition of 50 and 4 on \$5,000,000, and allow all those desiring to do so to bring them selves within the provisions of the act, but none should be barred who have not and do not desire so to do, but their claims should stand open for future adjustment. In my judgment it will take a tax of 30 cents on the \$100 of property. The Comptroller says it will take 35 cents on the \$100 of property, which will leave a respectable sinking fund in the Treasury. But we do not want a sinking fund now, but after we pay interest and get things in running order, then we can provide for the sinking fund. But what we most want is to defeat the repudiators, and give them to understand that honest men will yet rule the State; or should we say:

"Fight dog, fight bear,
No dog of ours there."

And truly it is not a fight of ours. But it is a family quarrel inter sese among the Democrats themselves, and they are responsible for the disgrace that has been brought upon the good name of Tennessee, as they have power to dispose of this question honorably if they would. It is a well established fact that the Republicans have been sound all the time on the State debt question. But it is insisted by some that the Governor has violated the law in ordering an election, how this I can not say, but if he has, the people are not to blame. We take it for granted that, as he is acting under a solemn oath to support the laws and Constitution of the State, that he has done his duty, until the contrary shall appear, and presuming that he has, in this case as for accepting the 50-4 proposition. If the 50-4 proposition is defeated what will be the impression abroad? In my opinion it will be that the repudiators have carried the State. If this conclusion is right every man who has an interest in the welfare of his State certainly desires to see the 50-4 proposition carry.

R. C. SAMSSEL.

From Yellow Springs.

YELLOW SPRINGS, SEVIER CO., TENN.

MR. EDITOR: I write you a short note from this watering place, which is one of the finest, as to water, there is now known in the State, for the improvement of health and rest for the weary toiler. These springs are now in good headway, and are managed by Messrs. W. C. Fox and Ishmael Patterson. The hotel at this place is a large and commodious building, and two hundred people can be taken care of here in this mountainous place, and we can justly boast of our pure air and mountain scenery above any other mineral watering place in my knowledge. I would advise all who are afflicted with rheumatism and other ailments, and I will guarantee that satisfaction will be the result. We have one hundred and thirty-five now in

regular attendance, and all are well pleased and are doing well, and there is still more room.

Bradshaw & Co., are doing a good business in the goods line here.

Crops are looking better since the rain set in for the last few days. Although corn and potatoes have suffered greatly from drouth, wheat is better in quality than we have had for some years, and it is expected by farmers that they will realize a fair price for their crop.

Politically the people are at rest. They are glad that Congress has adjourned, and hope the country never will experience another such a none. The people, as a general thing, in these parts protest against the August election and think it bogus.

YELLOW SPRINGS.

Poor Girls.

Unlike many foolish Christians, the Jews teach their children, girls as well as boys, some occupation by which they may earn a living. An exchange inculcates a similar practice upon all parents.

The poorest girls in the world are those who have never been taught to work. There are thousands of them. Rich parents have petted them; they have been taught to despise labor, and are perfectly helpless. If misfortune comes upon their friends, as it often does, their case is hopeless. The most forlorn and miserable woman upon earth belong to this class. It belongs to parents to protect their daughters from this deplorable condition. They do them a great wrong if they neglect it. Every daughter ought to be taught to earn her
